

# HOW TO USE ZOOM ONLINE LEARNING

**1**

## DOWNLOAD ZOOM

go to <https://zoom.us/download> and download zoom for your PC or Mac. On iPhone or Android, go to the App Store. PC or Mac is recommended.

**2**

## OPEN THE APP

Once the app is downloaded, install it. Now once the app is open, simply click 'join meeting'

**3**

## ENTER THE MEETING ID

The meeting ID is a 9 or 10 digit code that will have been emailed to you with these instructions. This is the same code you use each week.

**4**

## HAVE YOUR LESSON

When you've joined the meeting, you may enter the waiting room until your teacher joins you, or you may be connected right away. Make sure your volume is up and webcam activated!

## WHAT DO I NEED?

You'll need a computer or mobile device with a webcam, microphone and speakers. Most modern laptops, phones and iPads have these features. The lesson length will roughly mirror your normal lesson, although bear in mind additional resources may have to be prepared, marked and sent and so your lesson may be slightly shorter to allow for this additional work. You will communicate with your teacher via their email : [teachername@pathwaysmusic.com.au](mailto:teachername@pathwaysmusic.com.au)
